

ABDUL WAHID

Computer Science Graduate — Data Science • AI/ML & Full-Stack Developer

aw0246596@gmail.com | +92 313 5254905 | Pakistan | [linkedin.com](https://www.linkedin.com) | github.com

SUMMARY

Computer Science graduate (Data Science major) with hands-on experience across AI/ML engineering, full-stack web development, and Python automation. Built and shipped real-time computer-vision systems, FastAPI/Next.js applications, and scraping/automation pipelines during internships and independent projects. Comfortable owning a feature end-to-end — from model/backend logic to a polished, deployed frontend — and actively seeking a full-time role in AI, software development, or data science.

PROFESSIONAL EXPERIENCE

Artificial Intelligence Engineer — DreamBridge.ai

Aug 2025 – Dec 2025

- Developed and tested AI-related workflows and automation tasks, including small FastAPI-based services for automation and data processing.
- Performed static and dynamic web data scraping using Selenium and BeautifulSoup to source and structure data for downstream tasks.
- Assisted in frontend web development and contributed to minor backend features across internal tools.

WordPress Developer (Intern) — HolSol Technology

Jul 2024 – Sep 2024

- Built and customized WordPress websites and templates for client and internal use.
- Supported content, media, and plugin integrations, troubleshooting compatibility and layout issues across themes.
- Collaborated with Tabarak-Ur-Rehman as media manager during his fundraising campaign for TCF schools, coordinating web and content needs alongside development work.

Media Manager (Volunteer) — Tabarak-Ur-Rehman, 1,000-Mile Run Across Pakistan

Project Role

- Managed digital media content and online engagement during a nationwide fundraising run for The Citizens Foundation (TCF).
- Coordinated content delivery, scheduling, and outreach across a multi-city, multi-week national initiative.

PROJECTS

Pakistan Sign Language (PSL) Detection System — LinguaSign (Final Year Project)

GitHub Repository

- Built a real-time PSL hand-gesture recognition system translating 38 PSL alphabet letters into Urdu text and speech, using webcam input, MediaPipe hand-landmark detection, and a TensorFlow deep learning model.
- Backend: FastAPI, Python, TensorFlow, MediaPipe, OpenCV, scikit-learn | Frontend: Next.js, TypeScript, Tailwind CSS.
- Delivered a real-time Urdu text sentence builder with integrated speech synthesis output; produced a portfolio writeup for job applications.

3D Developer Portfolio Website

Personal Project

- Built and deployed a 3D interactive developer portfolio (React/Three.js template), customizing bio, internship history, and project showcase cards.
- Configured EmailJS for contact-form delivery, set up Git version control, and deployed to Vercel; resolved Vite environment-variable and asset-loading issues.

Tumor Detection & Maze Pathfinding Visualizer

GitHub Projects

- Developed a tumor detection model exploring medical image classification techniques.
- Built a maze-solving AI agent visualizing pathfinding algorithms in an interactive browser interface.

Git/GitHub Command Reference Tool

Personal Project

- Built a single-file HTML reference covering roughly 213 Git/GitHub commands, with a dark GitHub-inspired UI, live search, and detail panels for each command.

EDUCATION

Bachelor of Science in Computer Science — HITEC University

Graduated 2026

Major: Data Science

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C++, HTML, CSS, ASM x86

AI / ML: TensorFlow, scikit-learn, MediaPipe, OpenCV, NumPy, Pandas

Web Development: FastAPI, Next.js, React.js, Tailwind CSS, WordPress

Data & Automation: Data scraping & preprocessing, Selenium, BeautifulSoup, ADB

Databases & Cloud: PostgreSQL, MySQL, MongoDB, SQL, GCP, AWS

Tools: Git, GitHub, VS Code, Postman, Arduino Uno

ADDITIONAL INFORMATION

- Interested in Machine Learning, Deep Learning, Computer Vision, NLP, and Data Engineering; active GitHub profile. Actively seeking full-time opportunities in AI, Software Development, or Data Science.
